

February 23, 2023

To whom it may concern:

In 2021 Bolt Energy Group installed as a replacement project all our lighting above two NBA sized basketball courts. Subsequent projects have followed using Bolt Energy Group as our contractor.

Each project they have been involved with have more than met the mark in product delivery, installation and cost saving in regards to energy consumption. They are an organization that we are happy to be a professional reference for them.

Please feel to reach out to me to answer any questions you may have.

Sincerely,

A handwritten signature in black ink, appearing to read "Gus LaZear".
